PIRAYA
PHODOKMAI

ABOUT ME

Hello,I am 21 years old and I am very interested in IoT because nowadays everythings in daily life are connected to the Internet and internet can make life more convenient. I want to be one of those people who wants to help create technology that will make humans more comfortable.
I am not a good student, but I am a hardworking person and I believe I will have those skill being an intern
I believe that it pushed my full potential and gained a great experience here.

EDUCATION

2014 - 2019 :
Graduuated from high school
at Benchamarachutit Ratchaburi
GPAX : 3.21

2020 - 2022 :
Faculty of Engineering And Industrial Technology Silpakorn University
Department of : Electrical Engineering
Branch of : Electronic And Computer system
GPAX : 3.22

EXPERIENCE

เข้าร่วมอบรมโครงการ Configuration อุปกรณ์เครือข่ายเพื่อการทำงาน

- OSI Model
- IP Address
- VLAN
- Static
- RIP
- OSPF

เข้าร่วมอบรมโครงการ การพัฒนาระบบ IoT

- MQTT
- Node-RED

Mini Project Rain Aleart System

- It is a rain alert system application. This will help alert users that the area is raining. Notifications will be sent via Line Notify.

SKILLS

C,C++
Python
Assembly
Proteus
PSpice
Arduino
Electric circuit analysis
Ability to work under pressure conditions
